Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Highway Access and Parking - Overdevelopment
Comments:	I live opposite to Butlers. Our Hamlet has been a small community for decades. Two Mile Ash road is a small B road which during recent years has become over used and extremely dangerous; with the majority of motorists far exceeding the 30 mph speed limit. The suggested build site will require access to and from the road within short distance of a blind bend. This will present

considerable danger to motorists during and after the build. It will also permanently increase traffic post build, something the Hamlet community are actively working to avoid via other projects.

The construction will have a significant impact on myself and the neighbours. Dealing with site traffic blocking the road which will cause difficulties getting in and out of our drives, and increase danger to pedestrians as there are no concert or pathed side paths.

I appreciate HDC are under quota for new builds but I urge the Council to consider the immediate and long term impact to our community, and consider planning for larger plots in

Kind regards
