PROPOSAL:	Prior notification for the erection of an agricultural livestock and equipment building together with the formation of an associated farm access track and drainage works.
REFERENCE:	DC/26/0795
RECOMMENDATION:	Objection
Warnham Parish Council has no objections however, they would like to raise the serious concerns over the entrance and site lines entering and exiting the site. The parish council would like to request that the planning officers visit the site and review the application. Closer consideration could be reviewed at resiting the location of the entrance.
