Hi Planning,

I'd like to put in my objections for the proposal of 120 houses.

1 wildlife I have lived here for 4 years and the amount of wildlife that rely on those fields is amazing, but where do you propose they relocate too ?

2 flooding already the roads are flooded and dangerous and constantly get closed as not passable.

3 road access

4 doctors and schools are already stretched .

5 It wasn't granted before for very valuable reasons.

6 Everyone is constantly being encouraged to be healthy and the allotment brings this to many families.

7 There are enough housing estate already not complete in the area

8 I cannot think of 1 benefit to the surrounding area it will only bring problems as stated above flooding, traffic already bad , wildlife (homeless) etc

Many Thanks
