EHLO Comments – 26th March 2026

To the best of my knowledge this department have not received any complaints of noise nuisance regarding the existing car wash. I note that the new jet wash units will be in the same location adjacent to the slip road onto the A24.

Although there are limited residential properties in proximity the applicant will need to demonstrate that any adverse environmental impacts are mitigated from potential noise nuisance due to car wash operations.

I recommend a condition on hours of use to eliminate potential noise disturbance from operation of the jet car wash during early morning and late-night hours, weekends and public holidays.

Should you wish to discuss this matter further please do not hesitate to contact me
