Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Highway Access and Parking - Privacy Light and Noise - Trees and Landscaping
Comments:	The village already has a development that is barely occupied and still does not have the amenities and services it should. Potentially adding 68 more families in a hamlet this size is ridiculous with the

bare minimum bus service, a small village shop and one small school, not to mention the added traffic which will further ruin the already inadequate roads all in desperate need of repair and resurfacing and put walkers and the many horse riders at risk. Building properties that dwarf the existing structures size and that are not in keeping with already existing structures design wise is totally unacceptable.

Kind regards
