Dear Planning,
Please upload this email to file – Many thanks.

Dear Alice,
Summary of recommendation: **Modification**

I reviewed the re-submitted information which now aligns with the red line boundary. While I don't have concerns with the loss of the scrub planting to the northern boundary (outside red and blue line), I'd request the reinstatement of the more substantial scrub mix planting along the eastern boundary as previously shown, to reduce views of the landform changes from users of the public footpath and support the habitat creation within the 15m buffer of the ancient woodland.

Kind regards,
Inês

Inês Watson
