Customer Details

Address: Little Foxes, 11, Lower Road Fetcham Leatherhead

Comments Details

Commenter Type: Member of the Public

Stance: Customer made comments in support of the Planning Application

Reasons for comment: - Loss of General Amenity

Comments: Because of health and safety rationale the younger children in the Colgate area have been without a play area for over 5 years.

As a grandfather of two little girls I am aware how much the original play ground has been missed after the health and safety plug was pulled.

The opportunity of re-creating a new playground that will be built in accordance with more modern health and safety rules must not be missed.

I therefore fully support this application for the benefit of all the local children and particularly for those pupils in the two adjacent schools who traditionally used the old site in the past.

Kind regards
