Categories: Comments Received

Dear Planning Team,

I commented on this application on the 12th August and have been meaning to follow up since then as I could find nowhere to attach documents or photos to back my comments up.

I feel this is extremely important so I decided to email you so you can include my evidence when considering permission on this application.

I mentioned the flooding risk in my comments and I have attached the photos I took back in January this year when the water levels were high. The area in blue is obviously where the applicant wishes to build. The photos of the flooding from Browning's Gill is the narrow field directly behind where I have drawn the red arrow. The photo was taken from Eastlands Lane.

I do hope that this, along with my other comments, will be considered when making the decision.

Please let me know if I can be of further assistance.

Regards
