Dear Sir/Madam,

Proposal: Retrospective Planning Application for the erection of a bungalow and associated works (revisions to previously approved application DC/16/2331 comprising material details and water neutrality measures).
Site: Short Row House High Street Partridge Green West Sussex.

Thank you for your correspondence dated 10th of October 2024, please see our comments below regarding the above application.

Our investigations indicate that Southern Water can facilitate foul sewerage /surface water run off disposal to service the proposed development. Southern Water requires a formal application for a connection to the public sewer to be made by the applicant or developer.
To make an application visit Southern Water's Get Connected service: https://developerservices.southernwater.co.uk and please read our New Connections Charging Arrangements documents which are available on our website via the following link: https://www.southernwater.co.uk/developing-building/connection-charging-arrangements
We request that should this planning application receive planning approval, the following informative is attached to the consent: Construction of the development shall not commence until details of the proposed means of foul sewerage and surface water disposal have been submitted to and approved in writing by the Local Planning Authority in consultation with Southern Water.

The Council's Building Control officers or technical staff should be asked to comment on the adequacy of soakaways to dispose of surface water from the proposed development. No new soakaways should be located within 5 metres of a public or adoptable gravity sewer, rising main or water main.

The drainage design should ensure that no groundwater and/or land drainage will enter the public sewerage network.

Southern Water Services Ltd, Registered Office: Southern House, Yeoman Road, Worthing, West Sussex, BN13 3NX Registered in England No. 2366670
