Highway, safety, traffic and parking.

There are no measures that can be taken within the area that will allow for 68 families and their vehicles to improve the above. The surrounding area and access was never meant for the amount of traffic which exists in the village and which passes through from Southwater and Billingshurst now, without the increases planned on top. This is a floodplain with huge amounts of water filling the local brooke and cascading down the hill. The infrastructure ie. water works, is not fit for purpose now. The natural environment is constantly being damaged by litter and the wildlife massively affected by footfall, dogs and traffic.

All in all a very bad idea to allow further development.
