Reasons for comment:	- Other
Comments:	I am a local resident and a governor of the school. In my 40-year career as a teacher, education officer and Director of Education and Skills, I have visited hundreds of primary schools. St Andrews is one of the best, well led and well managed, as reflected in its recent OfSTED. The traditional school buildings have needed to be developed to meet the requirements of a modern school and there has been a well-planned programme of improvements across the whole campus. The current phase of this is the subject of this application, the main part of which is to replace the prefab

classroom-cum-nursery which was second-hand when it was installed 40 years ago. The brand-new building will house the nursery, the pre-school and after-school wrap-around care and some teaching. There will be a slightly larger footprint, but the height remains the same and it will be far more eco-friendly. A new staff room at the back of the main buildings is also included to replace the area that is now converted to break-out rooms. The school has been on its present site for many decades and has been an important feature of both the hamlet of Nuthurst and the wider parish. It is recognised for its inclusion of children with special needs and its pastoral care and its pupils and future generations deserve the benefits of these much-needed enhanced facilities.
Please note that I wish to speak in support at the relevant Planning Committee meeting.

Kind regards
