**Importance:** High

Hi Halima,

The Trees team have been consulted on the above application for erection of a two storey side extension, replacement of front garage door with window and extension of front porch, replacement of rear door with window and enlargement of rear first floor window.

The property is affected by an historic 1959 Area Tree preservation Order (ref: TPO/0056) that originally sought to retain mature trees present in the area, including a belt along the rear boundary of the subject property (old field hedgerow line). I can confirm that there are no mature trees subject of the TPO remaining in close proximity to the property and that there are no other trees of significant landscape value potentially affected by the proposed development.

I therefore raise no arboricultural concerns.

Regards

Andy
