Commenter Type: Neighbour

Stance: Customer objects to the Planning Application

Reasons for comment: - Design
- Highway Access and Parking
- Other

Comments: Dear Sir /Madam

I object to the retrospective planning application of the metal fence on the grounds of safety.

The fence encroaches the footpath which is widely used by young children on school walk and the elderly to the surgery / village centre.

The metal fence is spiked which can cause injury if fallen upon.
Clothing can easily be caught and damaged on the fence.
As the fence encroaches the path it is no longer to pass side by side on the public footpath.

Please do let me know if you require any further clarification.

Kind regards
