Reasons for comment:	- Other
Comments:	I'd like to show my support for this application as someone who uses the studio regularly. This isn't a busy or crowded gym-it's appointment-only, with small group or individual sessions. Everything is well organised, and session times are staggered, so there's never lots of people arriving or leaving at once. Parking has never been an issue either. What makes this place so valuable is how accessible and flexible it is. Being able to train before or after work has made a big

difference for me, and I know many others feel the same. It's a great asset for improving both physical and mental wellbeing in the local area.

The studio itself is very quiet and well run. There's clear effort put into keeping noise down, with proper flooring and a respectful atmosphere. It's nothing like a loud commercial gym.

It's also great to have something like this locally that people can walk to, rather than having to travel further afield.

I also think it's important to support local, independent businesses-especially ones run by people who are clearly invested in the community and have already contributed positively.

I fully support this application and hope it is approved.

Kind regards
