Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	I completely support this planning application. I work professionally in sustainability, helping companies understand and reduce their environmental footprints, and I believe this proposal is a sensible and appropriate use of the site. The applicant is a local resident who has lived in Rusper for over 30 years, rather than a developer seeking to maximise financial gain. This is an important consideration, as the proposal is about making appropriate use of an existing site rather than developing greenfield land. The site is brownfield and is not agricultural or undeveloped countryside. The proposal would involve the loss of old, existing structures, including stables, as well as an old tennis court/sand arena. As a result, I believe the development would have very limited impact on the environment and ecology of the area. Given the nature of the site and the existing structures, I believe this application

represents a reasonable and sustainable form of development, and I strongly support its approval.
