Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Highway Access and Parking - Loss of General Amenity - Other
Comments:	I object to this application because of the following: Furze View is a single track lane, with no "passing places" for vehicles. The proposed application outlines an opening time of 7 a.m. This would impact on residential amenities e.g. noise/disturbance and the loss of quiet enjoyment during early morning hours. Based on the proposed opening hours of the acupuncture clinic, suffice it to say that the number of extra vehicles using the lane

would be exponential. On a rough calculation, 25 extra vehicles per week equates to a staggering 1250 vehicles over a period of 50 weeks.

The only means of exiting Furze View is on to the very busy Horsham Road (A264). The exit junction has poor visibility of oncoming traffic and the increase in vehicle numbers would create congestion at a very dangerous point, exacerbating the risk of accidents.

It should be borne in mind that there is a business operating from Furze View - namely Furze Firs. During the 4 weeks preceding Christmas, the lane becomes chaotic with traffic at a very high volume, necessitating vehicles to reverse on to the A264, to allow oncoming vehicles from the lane to pass and exit.

The increased traffic generated by a further business venture in the lane will undoubtedly elevate noise, disturbance and safety of the residents and their pets.

Careful consideration and scrutiny should be given to this application. Once granted, it cannot be reneged.

Kind regards
