Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Highway Access and Parking - Other - Overdevelopment
Comments:	Southern Waters latest proposal would see additional sewage transferred to the already overloaded Barns Green wastewater and treatment works following the closure of the Itchingfield facility.

BG WTW is already an environmental and public infrastructure disaster and can't cope already. Capacity and the infrastructure are not fit for purpose. More development is absolutely ridiculous when you consider the state of the current sewage system and all the other reasons that have previously been raised. This new information should be fully assessed before any planning decision is made. I would strongly urge Horsham District Council to refuse the application or delay any decision until these concerns have been properly investigated, and capacity increased to serve village as it stands and any future development needs.

Kind regards
