Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	
Comments:	I 100% support this application for change of use. Having trained with Paul for many years losing such a community asset would be devastating . I'm [REDACTED] in great health both physically and mentally and this an absolutely a direct result of Paul's services and gym provisions. It's more than just a gym and offers so much more in terms of a social hub for like minded people. A walking group has stemmed from users of the group again supporting wellbeing and exercise that's so important to me as a retiree. The size of the facility is great with small group sessions without the intimidation of larger gyms especially for the more mature users. It really is a little community hub offering group support for both mind & body, I love it

Kind regards
