Dear Sir / Madam

**Vodafone Ltd - Notification under the Electronic Communications Code Regulations of the intention to install Electronic Communications Apparatus at Existing Wireless Infrastructure Group Mast, Horsham A24, Broad Heath, West Sussex RH12 3UB (NGR 514985 129542)**

We write on behalf of Vodafone Ltd, in relation to a proposal to carry out permitted development at the above site, which is owned or managed by Wireless Infrastructure Group, a radio site infrastructure provider. This letter and its enclosures set out the intention to use permitted development rights to install electronic communications apparatus at this site.

The apparatus will form part of the operators new mobile network. The operators are Electronic Communications Code Operators under the provisions of the Communications Act 2003 and operate in accordance with the Electronic Communications Code (Conditions and Restrictions) Regulations 2003, as amended.

Please therefore accept this letter and enclosures as advanced notification by the operator(s), as may be required, under the relevant conditions of The Electronic Communications Code (Conditions and Restrictions) Regulations 2003, as amended.

The works at this site, which constitute permitted development under Class A of Part 16 of Schedule 2 to the Town and Country Planning (General Permitted Development) (England) Order 2015, as amended (the GPDO), involve the installation of the following electronic communications apparatus:

- **Installation of 2m tower extension taking tower height from 18m to 20m**
- **Removal of 3no antennas from 16.25m**
- **Removal of 3no antennas from 16.2m**
- **Installation of 3no antennas at 21.7m**
- **Installation of 3no antennas at 21.4m**
- **Installation of 0.3m dish at 14m**
- **Installation and relocation of ancillary equipment**

The following information is enclosed:

- Location Plan showing the location where the apparatus will be installed (Drawing 100)
- Drawing reference numbers – Drawings 101 – 113 inclusive – providing further details of the siting, layout and design of the development
- ICNIRP Certificate

The development has regard to the particular site context and operational requirements to deliver mobile connectivity, particularly by utilising this existing operational communications site. Any visual impact of the development on the surrounding area will be minimised, so far as practicable, meeting Condition A.2(1)(b).

The proposal therefore does not consist of any development specified in Article A.1 or Condition A.2(3) of Part 16 of Schedule 2 of the Town and Country Planning (General Permitted Development) (England) Order 2015, as amended, which requires either an application for planning permission or an application for a determination as to whether the Authority's approval is required for the siting and appearance of the development.

As with all mobile installations, we can confirm the installation of the apparatus has been designed and will be operated within the relevant ICNIRP guidelines on public exposure. An ICNIRP certificate is enclosed.

### Other Engagement

In accordance with best practice guidelines and the advice contained in national policy, the operators are committed to undertaking wider engagement with the local community and other stakeholders who may have an interest in the development. The proposal has, therefore, been assessed using Traffic Light Rating Model in order to establish an appropriate level of engagement. The proposal has been categorised as green and we therefore have not carried out any wider community engagement reflecting the minor nature of the works.

### Contact Details

All queries in relation to this Notification should be addressed to the undersigned.

The proposal is not subject to an application for planning permission or prior approval, but nonetheless we offer you the opportunity to make any comments on the details of the development or our engagement strategy.

If you do have any comments to make, require a meeting to discuss the proposal or wish to have an accompanied visit to the site, please let us know within 14 days of the receipt of this letter.  
Yours faithfully
