Horsham

District Council

16 Sept 2026

Dear Sir/Madam

Planning Application Ref DC/26/1301

To my knowledge this is at least the third application for development of this site - last one DC/22/0707 dated 22 April 2022 - all of which have been refused. Nothing locally has changed since that last rejected application.

I continue to object most strongly against this development on several grounds:

1. Drainage not adequate
 2. Rubbish with current number of residents continually piling up against fence of Electricity Sub Station (fire hazard) CCTV now removed.
 3. Inadequate parking
 4. Disturbance during construction with delivery of building materials etc thus restricting access to my driveway (only house at end of service road) which is absolutely essential at all times as being over 90 and on chemotherapy emergency exit vital.
 5. On top of all this my privacy would be violated as windows ^{in new flat} would overlook my garden constantly
- If the applicant is keen to increase dwellings why have current accommodation been left vacant for 10 years or so - in this block?
- I believe there are plans for alterations to Jangers

Mead shopping precinct - have there been taken into account?

With constant rejections of planning applications maybe applicant is working on the assumption that persistence will eventually be rewarded. I hope this will not be the case in this instance.

Yours faithfully
Sue W. May
