Subject: DC/26/0640 Cedar Cottage Sandygate Lane Lower Beeding - HDC Ecology (BNG)

Hi Alice,

I have reviewed the most recent biodiversity metric, and it appears that the only thing that has changed is the strategic significance of the post-development habitat entries, although this is now also incorrect as since my comments the West Sussex LNRS has been published. No other comments listed within my consultation response have been addressed.

As such, my consultation response dated 29th May 2026 remains unchanged and I still object to this scheme.

Best,
Linsey
