Objection to above Development

Dear Sir,

I am writing to formally express my objection to the proposed housing development in the village of Barns Green

I am deeply concerned about the impact this development would have on the character, infrastructure, and environment of our village, it is a small rural community with limited facilities, and the scale of the proposed development appears disproportionate to the size and capacity of the village.

In particular, I am concerned about increased traffic on already narrow and congested roads, pressure on local services such as schools and healthcare, and the loss of green spaces that are important both for wildlife and for the wellbeing of residents. The proposal also risks undermining the historic and rural character of the village, which is highly valued by those who live here.

Flooding in the area happens a lot I for one know as my house had 2 feet of flood water in my living room, this is only 100 yards away from the proposed development and only feet away from the local shop and public house who have also been affected so a development of this size will have a detrimental effect on the village.

Furthermore, there appears to be insufficient consideration of whether existing infrastructure can realistically support this level of development. Without clear and credible plans to address these issues, I believe the proposal is unsustainable and contrary to the long-term interests of the community.

I respectfully request that Horsham District Council reconsider this proposal and give greater weight to the views of local residents, as well as to the environmental and social impacts of the development.

I trust that the Council will carefully review this matter and ensure that any future development is appropriate, proportionate, and in keeping with the character of our village.

Yours faithfully,
