

Hi,

Please see below the required information.

T1 Small Mountain Ash (3 metres in height) located at the front of the property which is showing signs of disease and significant areas of die back, to fell to ground level.

T2 Mountain Ash (7.5m height and an equal crown with branches of 4.5m on all sides) the tree is located on the border between no 12 & 13 Meiros Way to reduce all aspects by approximately 1.5m (leaving the finished height at 6m and branch length at 3m) The tree in question is in close proximity to the property and several branches are touching the guttering / roof.
