Reasons for comment:

Comments:

As a local resident, I strongly support changing the property from a dwelling to a Class E veterinary practice, and believe a local independent vet would be a real asset to the community. An experienced, community-focused practice on our doorstep would improve access to timely, specialist care for pets and horses, reduce travel for routine and urgent appointments, and support surrounding rural businesses. A well-managed clinic would create skilled jobs, make efficient use of the existing building, and

operate within modern environmental and noise standards, ensuring minimal impact on neighbours. The proposal fits the character of the area and delivers clear public benefit; I therefore urge approval

Kind regards
