Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	- Other
Comments:	I am fully supportive of this planning application as someone who regularly uses this gym. It is a very welcome addition to this location and it making an innovate and excellent use of the unit. This is not a large commercial or open-access gym and attendance at sessions are by tightly controlled by an online booking system or by appointment-only which means that

numbers are always with limited, creating a quiet, private, and well-managed training environment. Consequently, it appeals to people of a wide range of ages and abilities,

The applicant has made Billingshurst his base and has worked extremely hard over many years to build a fitness business, being enjoyed throughout by not only local people but the wider community, helping to improve not only physical health, but confidence, wellbeing, and overall quality of life. This is the next exciting step in advancing that business and the applicant should be supported and encouraged to do that.

For these reasons, I strongly support this application and would encourage those deciding this application to do the same.

Kind regards
