Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Design - Highway Access and Parking - Loss of General Amenity - Other - Overdevelopment - Privacy Light and Noise - Trees and Landscaping
Comments:	Submission of Supporting Evidence
	During the consultation period I submitted a number of emails

directly to the case officer because the planning portal did not permit the uploading of video recordings, photographs and other supporting media that I considered relevant to my representations. Those emails also contained explanatory text providing context for the supporting material and setting out why I believed it to be relevant to the assessment of the application.

Consequently, not all of the supporting evidence, nor all of the accompanying explanatory text submitted during the consultation period, is reflected in the documents available on the public planning portal.

The emails were submitted to supplement, not replace, my formal representations on the planning portal.

I am placing this note on the public record solely to record that additional supporting evidence and accompanying explanatory information were submitted directly to the Local Planning Authority during the consultation period because they could not be fully accommodated by the planning portal.

Kind regards

Telephone:
