Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Other
Comments:	I strongly object to this firstly with regards to siting and appearance, it is tall, unsightly, clutter of 5 ground cabinets, not in keeping with local nature and heritage sites. Proximity to Storrington Library, Arun Veterinary Group, Storrington Chapel Evangelical Church plus many houses and shops in centre of Storrington - opposite the site are the historic mill pond and stream leading

into Fryern Park, an area full of established tall trees, wildlife, waterfalls, biodiversity, local Storrington Conservation Society works here
- would nearby trees need to be cut down regularly to maintain signal?
- No Arboricultural Impact Assessment carried out
- North Street Car Park hosts the annual Friends of Storrington School (FOSS) fund raising event, the 'Duck Race', with ducks raced in the millstream
- More importantly, HDC (Horsham District Council) FOI confirmed no public liability insurance for EMF
harms
https://www.whatdotheyknow.com/request/5g_wireless_rfemf_radiation_the_2
- HDC would likely receive income from telecoms operators for siting mast in car park that is HDC asset - a conflict of interest in terms of planning?
- ICNIRP certificate headed by fictional companies - EE (UK) Ltd and H3G (UK) Ltd are not on Companies House
- ICNIRP safety guidelines do not cover people with any metal implants or animals and plants
- Public exclusion zone diagrams not included in the application
- Power consumption of mast (and all the infrastructure including data centres required to support it) not inline with local and national government environmental policies

---

Kind regards
