Comments Details

Commenter Type:	Neighbour
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Overdevelopment - Trees and Landscaping
Comments:	The site in question is already a traveller site with hard stands, stables, fixed dwellings, fences, gates, an assortment of litter and debris. It appears to be unoccupied and abandoned. Various mature trees and hedges were removed to establish this site. Any further expansion will lead to loss of a green -field site and

productive agricultural land.

An expansion of the site will reduce the quiet enjoyment of local residents and change the character and appearance of this side of Storrington village.

There is already a very large traveller site to the north of Fryern Park (on Fryern Road) which appears to expanding unchecked and unregulated. Mature hedgerows have been removed recently. These two sites could potentially merge again adversely affecting the quiet enjoyment, character and appearance of the village. .

Fryern Park is a private road and single track PROW. No footpaths or grass verge. It is narrow and poorly maintained, but is a popular route for walkers, cyclists, horse riders. An increase in the frequency and nature of traffic, to and from the traveller site, will make this route extremely dangerous for all users.

Fryern Park forms a T- junction with Fryern Road. This is an extremely busy road with an immediate change of speed limits, a restricted-view hill brow and two bus-stops. Entry and exit via this junction is hazardous.

Kind regards
