Categories: Comments Received

Good morning Mr Holmes

I have noted the following comment within the ecology report prepared by Eco Co Op:

“As the site lies within the SSSI Impact Risk Zone of Beeding Hill to Newtimber SSSI, Natural England will need to be consulted on the development.”

May I ask whether there is evidence that this consultation has been carried out and, if so, would it be possible for me to have access to any correspondence or documentation relating to it prior to any decision made on planning application DC25/2114.

Kind regards
