Comments Details

Commenter Type:	Member of the Public
Stance:	Customer made comments neither objecting to or supporting the Planning Application
Reasons for comment:	- Design - Other
Comments:	I have no objections in principle but surprised that there are no details regarding the drugs to be stored (other than a mention of 'prescription drugs') and any potential risk if there were to be leakage due to an extreme event on site. I'm also surprised not to see at least a fire risk assessment with details of mitigation.

These matters surely should be of concern for both planning and the EA.

Have these matters been considered and just not published?

Kind regards
