Stance: Customer objects to the Planning Application

Reasons for comment: - Design
- Other
- Overdevelopment

Comments: The fence that has been installed is dangerous and poorly installed, having not been installed entirely within the boundary of the property.

Given that the fence is presumably there to protect the grass in the front garden, there is no reason for it be spiked. The spike are a snagging risk as it borders an already narrow pathway. Worse, there is a clear risk for more serious injury for children or anyone

unfortunate to fall onto the fence.

Kind regards
