Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Highway Access and Parking - Loss of General Amenity - Overdevelopment - Privacy Light and Noise
Comments:	I support people extending or building their own homes but I am firmly against developers who do it only for profit. I have been bombarded with planning applications from nearby Martha's Barn and numerous other developers. I know that my opinion will have little impact on so many developers keen on making profit instead of preserving this area of beautiful farmland still populated with deers and various other animals. The animals and nature will be lost whilst I and many other pedestrians will be impacted by all this additional cars that will be using this public footpath that used to be a quite country lane. Additional car pollution, noise, speed will ensure public footpaths are not longer used. It is strange that the Council talks of environment but does everything to overdevelop green areas, put notices on the same road to prevent cyclist to use it but fully support and encourage car users. I don't know who all these developers are but the proud farmers keeping this land beautiful and country like should unite against this rape of their fatherland. I note all the additional houses, barns and warehouses

have been erected within a mile in the past few years and you don't stop it. It is clear - profits before saving the planet and naturally more council tax for you to reap the rewards

Kind regards
