

Typology	Primary purpose
Parks and gardens	Urban parks, country parks and formal gardens, open to the general public. Accessible, high quality opportunities for informal recreation and community events. For the purposes of this study this also includes greenspace which may currently provide a sports pitch.
Natural and semi-natural greenspaces	Supports wildlife conservation, biodiversity and environmental education and awareness.
Amenity greenspace	Opportunities for informal activities close to home or work or enhancement of the appearance of residential or other areas.
Provision for children and young people	Areas designed primarily for play and social interaction involving children and young people.
Allotments	Opportunities to grow own produce. Added benefits include the long term promotion of sustainable living, health and social inclusion.

Landscape Officer's Comments 13/02/2026
' (...) It is clear that any other on site provision could only fall into the Natural and Semi-natural greenspace typology. Storrington appears to have a deficit on this subcategory (OSSR 2021) and therefore provided the children and amenity open space is secured (...), the overprovision of this category over other types of multifunctional greenspace requirement generated by the development is considered acceptable.'
