Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Overdevelopment
Comments:	The proposed development presents significant issues regarding road access and traffic safety. Increased traffic along with construction vehicles will inevitably lead to severe congestion and safety hazards for both pedestrians and existing motorists. Granting access to this new site will severely compromise road safety and offer a lower quality of life to local residents.

Kind regards
