Reasons for comment:	
Comments:	I am writing in support of the application for the change of use from a light industrial building (Class E(g)(iii)) to a mixed use including a gym/fitness studio (Class E(d)). I am a regular user of the studio, and it provides a genuinely valuable local service. Its location makes it extremely convenient - it is easy to walk to, which reduces the need for car travel and supports sustainable local activity. The class timetable is well structured, offering sessions before and after work as well as

during lunch hours, which makes it accessible for people with varied schedules.

The studio has become an important part of my weekly routine and contributes positively to health, wellbeing, and community engagement in the area. Allowing the mixed use would ensure this facility can continue to operate and serve local residents.

I fully support this application.

Kind regards
