Comments Details

Commenter Type:	Member of the Public
Stance:	Customer objects to the Planning Application
Reasons for comment:	- Loss of General Amenity - Overdevelopment - Trees and Landscaping
Comments:	Loss of biodiversity! Some fun facts... 1 Relative abundance of species in England has declined by around 40% since 1970. 2. The distribution of pollinator species (such as bees and hoverflies) has decreased by an average of 18%.

3 Only 14% of assessed wildlife habitats in the UK are in good ecological condition.

Use brownfield sites!!!

According to the CPRE, almost 1,000 acres of brownfield sites are available for redevelopment in Sussex with the capacity to build more than 23,500 homes.

Kind regards
