Dear Sir/Madam

Reference planning application DC/26/0741.

The photo showing the existing semidetached houses contrasts greatly with the design of the proposed semidetached houses.

I believe that the street scene should show that a newly built semidetached house should be a good match to those semidetached houses built 120 years ago. I hope the council agree with me.

I have sent the photo of Abbots Lea to indicate how a house can look after renovation. It is about a hundred metres further north than the proposed semidetached new build.

I have sent an objection on the Horsham Planning web site concerning the proposed build and the photos are relevant to my objection.

Thanks for your help.

Regards
