

Manufacturers details of the proposed roof materials	• 0.7mm thick plastisol coated galvanised steel roof sheets. Attached example (Colour Goosewing Grey BS10A05) • Single skin Filon grade GRP rooflights class 1 fire rating. Attached example (natural translucent GRP sheets)
Front elevation (12 April 2024, 10:12:28)	 A photograph of the front elevation of a two-story brick building. The building has a mix of red and dark grey bricks. There are several windows, some with white frames, and a sign for 'Delta Tooling' is visible. A white car and a blue car are parked in front of the building. The date stamp '12/04/2024' is in the bottom right corner.
North elevation (24 October 2023, 11:27:14)	 A photograph of the north elevation of a brick building. The wall is covered in moss and lichen, indicating age and weathering. A wooden frame structure is leaning against the wall in the foreground. The date stamp '24/10/2023' is in the bottom right corner.

South elevation (12
April 2024,
10:25:48)

Rear elevation (12
April 2024,
10:21:34)
