Comments Details

Commenter Type:	Member of the Public
Stance:	Customer made comments in support of the Planning Application
Reasons for comment:	- Highway Access and Parking - Overdevelopment
Comments:	The access for school children to the forest school site will be severely compromised during and after the works. The school is already partially over subscribed and it's fairly obvious who housing built directly next to a school is aimed at, and also the secondary schools are all oversubscribed. The road access will cause much more traffic along already narrow roads, around the school area thus causing issues for those walking to the school. Public transport links are poor and this will lead to increased traffic again, along the main London road which has no pedestrian crossings anyway. There is no doctors surgery and more strain on local surgeries will cause problems. The existing shop would not be big enough to cope and parking is already dangerous at times with cars parked down the narrow road and even on pavements outside.

Kind regards
