

DELEGATED APPLICATIONS - ASSESSMENT SHEET

APPLICATION NO./ADDRESS:

DC/26/0607

Triam By The Mill , The Hollow, West Chiltington, West Sussex, RH20 2QA

DESCRIPTION:

Variation of Condition 1 and Removal of Condition 4 of previously approved application reference DC/24/0307 (Erection of a single storey rear extension, installation of an outdoor swimming pool, and erection of a single storey poolhouse outbuilding with associated landscaping) relating to water neutrality.

RELEVANT PLANNING HISTORY:

DC/24/0307	Erection of a single storey rear extension, installation of an outdoor swimming pool, and erection of a single storey poolhouse outbuilding with associated landscaping	Application Permitted on 30.05.2024
------------	---	-------------------------------------

RELEVANT PLANNING POLICIES

The National Planning Policy Framework (NPPF)

Horsham District Planning Framework (2015):

Policy 25- Strategic Policy: The Natural Environment and Landscape Character

Policy 26- Strategic Policy: Countryside Protection

Policy 28- Replacement Dwellings and House Extensions in the Countryside

Policy 31- Green Infrastructure and Biodiversity

Policy 32- Strategic Policy: The Quality of New Development

Policy 33- Development Principles

Policy 34- Cultural and Heritage Assets

Neighbourhood Plan:

The West Chiltington Neighbourhood Plan is in progress.

Planning Advice Notes:

Facilitating Appropriate Development

Biodiversity and Green Infrastructure

REPRESENTATIONS AND CONSULTATIONS RESPONSES

Where consultation responses have been summarised, it should be noted that Officers have had consideration of the full comments received, which are available to view on the public file at www.horsham.gov.uk.

Consultations:

Parish Comments:

None Received

Representations:

None received

HUMAN RIGHTS AND EQUALITY:

The application has been considered having regard to Article 1 of the First Protocol of the Human Rights Act 1998, which sets out a person's rights to the peaceful enjoyment of property and Article 8 of the same Act, which sets out their rights in respect to private and family life and for the home. Officers consider that the proposal would not be contrary to the provisions of the above Articles.

The application has also been considered in accordance with Horsham District Council's public sector equality duty, which seeks to prevent unlawful discrimination, to promote equality of opportunity and to foster good relations between people in a diverse community, in accordance with Section 149 of the Equality Act 2010. In this case, the proposal is not anticipated to have any potential impact from an equality perspective.

PLANNING ASSESSMENT:

The application seeks the Variation of Condition 1 and Removal of Condition 4 attached to planning permission DC/24/0307, which required the development to demonstrate water neutrality in accordance with Natural England's Position Statement of September 2021. That condition was imposed to ensure compliance with the Conservation of Habitats and Species Regulations 2017, given uncertainty at that time regarding the potential effects of increased groundwater abstraction on the Arun Valley Special Area of Conservation (SAC), Special Protection Area (SPA) and Ramsar sites.

Since the granting of the original permission, the policy and evidential context have materially changed. On 31 October 2025, Natural England formally withdrew its September 2021 Position Statement following the completion and scrutiny of Southern Water's Hardham Basin Environmental Study. Natural England confirmed that a package of agreed measures, including a reduction in the Hardham groundwater abstraction licence and additional eco-logical resilience measures, provides sufficient certainty that new development within the Sussex North Water Supply Zone will not have a likely significant effect on the Arun Valley designated sites. As a consequence, Natural England has advised that local planning authorities are no longer required to undertake Appropriate Assessment or secure water neutrality mitigation for new development on the basis of water scarcity alone.

Notwithstanding the forthcoming licence modification, Horsham District Council, as competent authority, has continued to apply a precautionary approach pending formal implementation of the licence changes. In agreement with Natural England, the Council is utilising verified water savings achieved by Southern Water during 2024/25 through leakage reduction and related measures. These savings amount to approximately 772,591 litres per day and can be attributed to new development without increasing abstraction pressure on the Arun Valley sites. Natural England's standing advice dated 10 November 2025 confirms that reliance on these savings raises no objection and constitutes Natural England's formal response under Regulation 63(3) of the Habitats Regulations.

In this case, Officers have undertaken an Appropriate Assessment which demonstrates that the additional water demand arising from the development permitted under DC/24/0307, when considered alone and in combination with other permissions granted since 31 October 2025, would not exceed the available Southern Water savings. It is therefore concluded that the development will not result in an adverse effect on the integrity of the Arun Valley SAC, SPA or Ramsar sites.

Given the withdrawal of Natural England's 2021 Position Statement, the availability of confirmed water savings, and the conclusions of the Appropriate Assessment, it is considered that the Water Neutrality Statement prepared by George & James Architects and submitted on the 23.02.2024 and Condition 4 are no longer necessary to make the development acceptable in planning terms. The condition no longer meets the tests set out in paragraph 56 of the NPPF, as it is not required to mitigate any identified harm. Its removal would not conflict with Policy 31 of the Horsham District Planning Framework or the Council's duties under Regulations 63 and 70 of the Conservation of Habitats and Species Regulations 2017.

Accordingly, the removal of Condition 4 and variation of the plans condition removing the water statement are considered acceptable, and the development permitted under DC/24/0307 can proceed without further water neutrality restrictions, without giving rise to harm to protected European sites.

Recommendation: Application Permitted

Conditions:

- 2 **Standard Time Condition:** The development hereby permitted must be commenced by the 30.05.2027.

Reason: To comply with Section 91 of the Town and Country Planning Act 1990.

- 3 **Pre-Commencement Condition:** No development shall commence, including demolition pursuant to the permission granted, ground clearance, or bringing equipment, machinery or materials onto the site, until the following preliminaries have been completed in the sequence set out below:

- All trees on the site shown for retention on approved drawing number 355_PR000 Rev A, as well as those off-site whose root protection areas ingress into the site, shall be fully protected throughout all construction works by tree protective fencing affixed to the ground in full accordance with section 6 of BS 5837 'Trees in Relation to Design, Demolition and Construction - Recommendations' (2012).
- Once installed, the fencing shall be maintained during the course of the development works and until all machinery and surplus materials have been removed from the site.
- Areas so fenced off shall be treated as zones of prohibited access, and shall not be used for the storage of materials, equipment or machinery in any circumstances. No mixing of cement, concrete, or use of other materials or substances shall take place within any tree protective zone, or close enough to such a zone that seepage or displacement of those materials and substances could cause them to enter a zone.
- Any trees or hedges on the site which die or become damaged during the construction process shall be replaced with trees or hedging plants of a type, size and in positions agreed by the Local Planning Authority.

Reason: As this matter is fundamental to ensure the successful and satisfactory protection of important trees and hedgerows on the site in accordance with Policy 33 of the Horsham District Planning Framework (2015).

- 4 **Not Used**

- 5 **Regulatory Condition:** The materials to be used in the development hereby permitted shall strictly accord with those indicated on the application form and approved plans.

Reason: To enable the Local Planning Authority to control the development in detail in the interests of visual amenity and in accordance with Policy 33 of the Horsham District Planning Framework (2015).

- 6 **Regulatory Condition:** The outdoor pool and pool house building hereby permitted shall be used solely for purposes incidental to the occupation and enjoyment of the residential property at Trian By The Mill, The Hollow, West Chiltington (as identified on the approved plans), and shall not be used as a separate unit of accommodation, as habitable living accommodation, for any commercial purposes or for any other purpose(s) / use(s).

Reason: The establishment of an additional independent unit of accommodation, additional living accommodation, commercial use or any other use(s) would give rise to an over-intensive use of the site and lead to an unsatisfactory relationship between independent units of living accommodation contrary to Policy 33 of the Horsham District Planning Framework (2015).

NOTE TO APPLICANT

Biodiversity Net Gain Condition

Paragraph 13 of Schedule 7A to the Town and Country Planning Act 1990 states that planning permission is deemed to have been granted subject to the "biodiversity gain condition" which means development granted by this notice must not begin unless:

- (a) a Biodiversity Gain Plan has been submitted to the planning authority, and
- (b) the planning authority has approved the plan.

Under Regulations 4, 5, 7 & 8 of the Biodiversity Gain Requirements (Exemptions) Regulations 2024 the statutory biodiversity gain condition required by Schedule 7A to the Town and Country Planning Act 1990 (as amended) does not apply in relation to planning permission for development which:

1. does not impact an onsite priority habitat (a habitat specified in a list published under section 41 of the Natural Environment and Rural Communities Act 2006); and impacts less than 25 square metres of onsite habitat that has biodiversity value greater than zero and less than 5 metres in length of onsite linear habitat (a hedgerow habitat or watercourse habitat identified for the purposes of the biodiversity metric);
2. is the subject of a householder application within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order 2015;
3. is undertaken solely or mainly for the purpose of fulfilling, in whole or in part, the biodiversity gain planning condition which applies in relation to another development (In determining whether a development is undertaken solely or mainly for this purpose, no account is to be taken of any facility for the public to access or to use the site for educational or recreational purposes, if that access or use is permitted without the payment of a fee);
4. consists of no more than 9 dwellings, is carried out on a site which has an area no larger than 0.5 hectares, and consists exclusively of dwellings which are self-build or custom housebuilding ("Self-build or custom housebuilding" has the same meaning as in section 1(A1) of the Self-build and Custom Housebuilding Act 2015 (as amended)).

In addition, the Biodiversity Gain Plan Condition does not apply to applications for major development made before 12 February 2024, or non-major development made before 2 April 2024.

Based on the information submitted in the planning application documents, the Planning Authority considers that this permission is exempt from biodiversity net gain, and as such does not require approval of a biodiversity gain plan before development is begun.

Statutory exemptions and transitional arrangements

There are statutory exemptions and transitional arrangements which mean that the biodiversity gain condition does not always apply. These can be found at Paragraph: 003 Reference ID: 74-003-20240214 of the Planning Practice Guidance, which can be found at <https://www.gov.uk/guidance/biodiversity-net-gain>.

Irreplaceable habitat

If the onsite habitat includes irreplaceable habitat (within the meaning of the Biodiversity Gain Requirements (Irreplaceable Habitat) Regulations 2024) there are additional requirements for the content and approval of Biodiversity Gain Plans.

POSITIVE AND PROACTIVE STATEMENT

Statement pursuant to Article 35 of the Town and Country Planning (Development Management Procedure) (England) Order 2015. The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received, in order to be able to, where possible, grant permission.

Plans list for: DC/26/0607

(The approved plans will form Condition 1 on the Decision Notice of all Permitted applications)

Schedule of plans/documents **approved**:
