Subject: DC/24/0274, 88 Farhalls Crescent, Horsham

Good Morning Luigi & Halima,

Please find multiple photos attached.

We have now lived at 88 Farhalls Crescent for 6 years. Since living on the road lots of changes have been made to the properties. I believe most of the properties people have lived in for 40+ years. In which they have not made a lot of changes. You can now see where the new younger family's are moving in and making greater changes to there property (Modernising and extending).

Most of the semi-detached properties around the crescent have gone double storey now. We put in planning permission a few years ago for a double extension but was not back. We considered moving because of this. However we love the area, so we have come up with a huge compromise on the new extension plans.

I have attached photo's of the neighbouring property in which will be affected by the build. As you can see from the photos there property has no window or doors which will be affected by the build. Its a current eye sore looking out our kitchen window at this. There house is approximately 1metre above our ground level. From there house to the boundary fence they have 900mm walk way for side access.

Please let me know if you need anymore information.

I look forward to hearing from you.

Kind Regards

Chris Rose
