THAKEHAM PARISH COUNCIL CONSULTATION COMMENTS

TO:	Horsham District Council – Planning Dept
SITE ADDRESS:	Little Thakeham Farm Storrington Road Thakeham West Sussex
PROPOSAL:	Permitted Development rights for temporary campsites open from 03 May 2024 to 22nd August 2024 for up to 60 days (for no more than 42 consecutive days)
REFERENCE:	DC/24/00643
RECOMMENDATION:	UNABLE TO SUPPORT

SUMMARY OF COMMENTS & RECOMMENDATION:

Thakeham Parish Council (TPC) is unable to Support this current request as we feel that in an increase of usage will not conform to Water Neutrality regulations as it currently stands.

MAIN COMMENTS:

Having previously spoken with the applicant (DC/24/0336), there may be ways to address the Water Neutrality issue, but TPC requests that the application is either put on hold or refused until such time that the applicant can provide data to clearly demonstrate that Water Neutrality can be achieved. There are existing water meters in place and many other facilities that can be adapted on site to mitigate the extra water usage.

TPC wishes to committee to note that there are no proposed sitings or information in the application that makes it different to the original apart from dates.

Therefore TPC cannot support the application due to a complete lack of information.

ANY RECOMMENDED CONDITIONS:

Applicant to come back with a fully developed Water Neutrality scheme and an application that details the site. It is shocking to see such poor site schematics be presented.
