Horsham District Council

DELEGATED APPLICATIONS - ASSESSMENT SHEET

APPLICATION NO./ADDRESS:
DC/25/0386
Land Parcel at 507911 125837, Newbridge Road, Billingshurst, West Sussex,

DESCRIPTION:
Variation of Conditions 1 and 18 of previously approved application DC/24/1989 (Variation of condition 1 and 17 of previously approved application reference DC/22/0518 (Outline Application for redevelopment of the site to provide flexible employment space (Use Classes E(g)(ii) and (iii), B2 and B8) totalling 4,627sqm, ancillary parking and circulation space with all matters reserved except access and layout) regarding revised masterplan and reference to the proposed footpath and Discharge Details in relation to Conditions 5, 6 part ii, 7, 8, 9, 12, 15 and 20) to amend the Water Neutrality scheme.

RELEVANT PLANNING HISTORY:

Wider Site:		
DC/19/0295	Hybrid application for the erection of petrol filling station with convenience store and sandwich bar, car wash, jet wash and car parking; motorcycle showroom and workshop with associated car parking; outline planning permission for flexible employment space (B1b/B1c/B2/B8) totalling 4,627sqm with associated car parking and circulation space (scale, landscaping and appearance reserved); new access to the site from A272 and pedestrian link to footbridge over A29.	Application Permitted on 10.01.2020
Phase 2:		
DC/22/0518	Outline Application for redevelopment of the site to provide flexible employment space (Use Classes E(g)(ii) and (iii), B2 and B8) totalling 4,627sqm, ancillary parking and circulation space with all matters reserved except access and layout	Application Permitted on 07.10.2022
DC/24/0805	Reserved matters application pursuant to Condition 2 of outline planning permission DC/24/1989 (Variation of condition 1 and 17 of previously approved application reference DC/22/0518 (Outline Application for redevelopment of the site to provide flexible employment space (Use Classes E(g)(ii) and (iii), B2 and B8) totalling 4,627sqm, ancillary parking and circulation space with all matters reserved except access and layout) regarding revised masterplan and reference to the proposed footpath and Discharge Details in relation to Conditions 5, 6 part ii, 7, 8, 9, 12, 15 and 20).	Application Permitted on 12.02.2025
DC/24/1989	Variation of condition 1 and 17 of previously approved application reference DC/22/0518 (Outline Application for redevelopment of the site to provide flexible employment space (Use Classes E(g)(ii) and (iii), B2 and B8) totalling 4,627sqm, ancillary parking and circulation space with all matters reserved except access and layout) regarding revised masterplan and reference to the proposed footpath and Discharge Details in relation to Conditions 5, 6 part ii, 7, 8, 9, 12, 15 and 20.	Application Permitted on 12.02.2025
DC/24/1571	Variation of Condition 23 of previously approved application DC/22/0518 (Outline Application for redevelopment of the site to provide flexible employment space (Use Classes E(g)(ii) and	*Pending Consideration*

	(iii), B2 and B8) totalling 4,627sqm, ancillary parking and circulation space with all matters reserved except access and layout) to amend the wording of the condition in relation to hours of use	
DC/25/0342	Variation of Condition 1, 10, 18, 19, and 21 of previously approved application DC/24/1989 (Variation of condition 1 and 17 of previously approved application reference DC/22/0518 (Outline Application for redevelopment of the site to provide flexible employment space (Use Classes E(g)(ii) and (iii), B2 and B8) totalling 4,627sqm, ancillary parking and circulation space with all matters reserved except access and layout) regarding revised masterplan and reference to the proposed footpath and Discharge Details in relation to Conditions 5, 6 part ii, 7, 8, 9, 12, 15 and 20.) Relating to water neutrality (borehole).	*Pending Consideration*

DESCRIPTION OF THE SITE

The application site is situated on the western edge of Billingshurst (outside the defined Built-up Area Boundary), on an area of agricultural land located between the A272 and A29 at Platts Roundabout. The site and the relationship with its surrounds is the same as described under DC/19/0295, save for the recent construction that has taken place in Phase 1a (immediately to the north of the site).

Access to the site is provided by an internal roadway connecting from the A272 which has recently been completed as part of works to facilitate the construction of approved development within Phase 1. The site is not subject to any statutory designations.

A hybrid permission (DC/19/0295) was granted in January 2020 for the development of the wider agricultural site to provide a petrol filling station with associated convenience store and sandwich bar within Phase 1a (north-east), a motorcycle showroom and workshop within Phase 1b (north-west), and outline permission for the erection of 4,627sq.m of flexible employment floorspace (within use classes B1b, B1c, B2 and B8) on the southern parcel of land / Phase 2.

Since the original permission was granted, a variation to the petrol filling station, and a standalone coffee drive-through unit within Phase 1a has been approved, and built out. An amendment to Phase 1b has also been considered and approved to increase the size of the showroom, with works yet to commence on this parcel.

In respect of the current application site (Phase 2), this was then subject to a separate standalone outline permission under DC/22/0518 (permitted in October 2022), followed by a reserved matters application under DC/24/0805 (permitted in February 2025), and a s73 amendment to the layout under DC/24/1989 (permitted in February 2025).

Permission therefore exists on site (Phase 2) for the development of 4,627sq/m of flexible employment floorspace (now falling within use classes E(g)(ii) and (iii), B2 and B8), with a number of planning conditions also having been submitted and satisfied.

DESCRIPTION OF THE APPLICATION

A S73 application has been submitted to vary the details of the approved consent under conditions 1 and 18 of DC/24/1989, with a view of replacing the approved Water Neutrality Assessment with the submitted Water Neutrality Technical Note. The revisions would in effect enable the applicant / developer to apply to join the district-wide SNOWS scheme to provide potable water. The non-potable water demand within the site would be met by way of on-site rainwater harvesting from the development's roof-slopes.

The application therefore seeks to remove reference under the plans list (Condition 1) to 'Supporting Statement Water Neutrality Assessment 784-B033993 P04 29.06.2022'.

The proposed amendment would also remove Condition 18, which currently reads:

"Pre-Occupation Condition: The development hereby permitted shall be undertaken in full accordance with the Water Neutrality Assessment (Tetra Tech, 784-B033993 P04, received 29/06/2022). No unit hereby permitted shall be first occupied until evidence has been submitted to and been approved in writing by the Local Planning Authority that the approved water neutrality strategy for that unit has been implemented in full. The evidence shall include the specification of fittings and appliances used, evidence of their installation, evidence they meet the required water consumption flow rates, and evidence of the installation and connection of the rainwater harvesting system and appropriate storage tanks to provide a minimum 35 days storage capacity. The installed measures shall be retained and operated as such at all times thereafter.

Reason: To ensure the development is water neutral to avoid an adverse impact on the Arun Valley SACSPA and Ramsar sites in accordance with Policy 31 of the Horsham District Planning Framework (2015), Paragraphs 179 and 180 of the National Planning Policy Framework (2021), its duties under the Conservation of Habitats and Species Regulations 2017 (as amended), and s40 of the NERC Act 2006 (Priority habitats & species)."

This would be replaced by a new condition which has been suggested by the application to read as follows:
"No development shall commence until details have been submitted to and been approved in writing by the Local Planning Authority confirming that the necessary credits to achieve water neutrality have been secured via the Sussex North Offsetting Water Scheme.

Reason: To ensure that the approved development is water neutral, thus avoiding contribution to the possible adverse effect upon the integrity of the Arun Valley Special Area of Conservation, Special Protection Area and Ramsar designations addressed by the Natural England Position Statement of September 2021 and to satisfy the Authority's duties pursuant to the Protection of Habitats and Species Regulations 2017 (as amended) at Regulation 63."

RELEVANT PLANNING POLICIES
The National Planning Policy Framework (NPPF):

Horsham District Planning Framework (2015):
Policy 1 - Strategic Policy: Sustainable Development
Policy 2 - Strategic Policy: Strategic Development
Policy 3 - Strategic Policy: Development Hierarchy
Policy 4 - Strategic Policy: Settlement Expansion
Policy 7 - Strategic Policy: Economic Growth
Policy 9 - Employment Development
Policy 12 - Strategic Policy: Vitality and Viability of Existing Retail Centres
Policy 13 - Town Centre Uses
Policy 24 - Strategic Policy: Environmental Protection
Policy 25 - Strategic Policy: The Natural Environment and Landscape Character
Policy 26 - Strategic Policy: Countryside Protection
Policy 31 - Green Infrastructure and Biodiversity
Policy 32 - Strategic Policy: The Quality of New Development
Policy 33 - Development Principles
Policy 35 - Strategic Policy: Climate Change
Policy 36 - Strategic Policy: Appropriate Energy Use
Policy 37 - Sustainable Construction
Policy 38 - Strategic Policy: Flooding
Policy 39 - Strategic Policy: Infrastructure Provision
Policy 40 - Sustainable Transport
Policy 41 - Parking

Billingshurst Neighbourhood Plan (2021)
Policy BILL 1: Billingshurst Built-Up Area Boundary
Policy BILL 3: Energy Efficiency and Design

Policy BILL 7: Retaining and Enhancing the Vitality and Viability of the Village Centre
Policy BILL 10: Flexible Workspaces
Policy BILL 12: Protection and Enhancement of Key Movement Routes
Policy BILL 16: Multi-Value Sustainable Drainage Systems

Paragraph 33 of the NPPF requires that all development plans complete their reviews no later than 5 years from their adoption. Horsham District Council is currently in the process of reviewing its development plan however at this stage the emerging policies carry only limited weight in decision making. As the HDPF is now over 5 years old, the most important policies for the determination of this application must be considered as to whether they are 'out of date' (NPPF paragraph 11d). This includes, for applications involving the provision of housing, whether the Council can demonstrate a five year supply of deliverable housing sites (NPPF footnote 8).

The Council is currently unable to demonstrate a five year supply of deliverable housing sites, with the supply currently calculated as being 1 years. The presumption in favour of development within Paragraph 11d) of the NPPF therefore applies in the consideration of all applications for housing development within the District (unless footnote 7 or Paragraph 14 applies to relevant applications), with Policies 2, 4, 15 and 26 now carrying only moderate weight in decision making.

All other policies within the HDPF as itemised above have been assessed against the NPPF and are considered to be consistent such that they continue to attract significant weight in decision making.

Supplementary Planning Guidance:
Planning Obligations and Affordable Housing SPD (2017)
Community Infrastructure Levy (CIL) Charging Schedule (2017)

REPRESENTATIONS AND CONSULTATIONS RESPONSES
Where consultation responses have been summarised, it should be noted that Officers have had consideration of the full comments received, which are available to view on the public file at www.horsham.gov.uk

Consultations:
INTERNAL CONSULTATIONS
HDC Landscape Architect: No Objection

HDC SNOWS Officer: No Comments

PUBLIC CONSULTATIONS
Representations:
No letters of representation have been received in response to the public consultation process.

Parish Comments:
Billingshurst Parish Council: Neutral
The Parish Council remains neutral in this instance as they state they are ‘not experts in Water neutrality and trust in the experience of the case officer in this matter’.

HUMAN RIGHTS AND EQUALITY:
The application has been considered having regard to Article 1 of the First Protocol of the Human Rights Act 1998, which sets out a person's rights to the peaceful enjoyment of property and Article 8 of the same Act, which sets out their rights in respect to private and family life and for the home. Officers consider that the proposal would not be contrary to the provisions of the above Articles.

The application has also been considered in accordance with Horsham District Council's public sector equality duty, which seeks to prevent unlawful discrimination, to promote equality of opportunity and to foster good relations between people in a diverse community, in accordance with Section 149 of the

Equality Act 2010. In this case, the proposal is not anticipated to have any potential impact from an equality perspective.

PLANNING ASSESSMENT

As set out above, consent is sought under Section 73 of the Town and Country Planning Act to amend the plans approved under DC/24/1989 (Condition 1), and to remove Condition 18 in its entirety, as this would no longer be necessary given the intention to apply to the Council's SNOWs scheme in respect of water neutrality (Sussex North Offsetting Water Scheme).

Whilst a consent under S73 creates a new planning permission for the site, government guidance set out in the PPG is clear that only the matters being amended are to be considered. It is not the purpose or function of a s73 consent to revisit the principle of development on the site. Accordingly, the principle of development on this site remains settled and acceptable, along with all other matters not subject to these proposed amendments.

Water Neutrality:

The application site falls within the Sussex North Water Supply Zone as defined by Natural England which draws its water supply from groundwater abstraction at Hardham. Natural England has issued a Position Statement for applications within the Sussex North Water Supply Zone which states that it cannot be concluded with the required degree of certainty that new development in this zone would not have an adverse effect on the integrity of the Arun Valley SAC, SPA and Ramsar sites.

Natural England advises that plans and projects affecting sites where an existing adverse effect is known will be required to demonstrate, with sufficient certainty, that they will not contribute further to an existing adverse effect. The received advice note advises that the matter of water neutrality should be addressed in assessments to agree and ensure that water use is offset for all new developments within the Sussex North Water Supply Zone.

The proposed amendment relates to the water neutral strategy for the site. As approved under DC/22/0518, this strategy comprised a 100% rainwater harvesting system for all the employment units, starting with on-site efficiency measures to reduce the daily water demand to 24.18 l/p/d.

The amendment seeks a revision to the approved 100% rainwater harvesting system to provide a hybrid approach, whereby the non-potable water demand would be met by way of a rainwater harvesting system, similar to that which was previously approved under DC/22/0518. The hybrid approach would then offset of the remaining water demand via an application to the emerging strategic SNOWS (Sussex North Offsetting Water Scheme).

The submitted Water Neutrality Technical Note recalculates the water demand based on the correct use classes / employment ratios, in this instance using the B2 (industrial / manufacturing) use class as the 'worst-case' scenario (36sq.m / employee). Therefore, based on 4,372sq.m of consented employment floorspace at a B2 use class employment density of 36 staff / sqm (being the highest of the consented use classes for this site) this would equate to an average of 123 staff employed at the site. On this basis, officers calculate that the envisaged daily water demand would be 3,273 l/d (24l/p/d).

The proposed hybrid system, would therefore comprise a split between mains water and rainwater (RWH):

- Potable / mains (taps) to be delivered by way of access to SNOWS: 10.35 l/p/d (1,273 l/d site-wide)
- Non-potable / greywater (WC flushing) to be delivered by way of an on-site rainwater harvesting system: 13.50 l/pd (1,661 l/d site-wide)

Onsite efficiencies

Officers note that the submitted Water Neutrality Technical Note does not include details of the efficiency fittings within the consented development, or the details of the rainwater system including its storage capacity. Consequently, instead of removing Condition 18 as requested by the applicants, condition 18 is to be amended to request that these details are submitted, approved and then installed.

In terms of the rainwater system, as this is not supplying potable water the full suite of management and maintenance details previously required by Condition 10 is no longer required. Condition 18 will instead request appropriate management and maintenance details. Likewise, Condition 19 is no longer required as the rainwater demand is significantly diminished compared to the previously approved 100% rainwater scheme. Finally, Condition 21 is no longer required as the new strategy involved offsetting the remaining mains water use via SNOWS; as such the development will be now using mains water.

SNOWS
As the site comprises an existing employment commitment within the post-submission Horsham District Local Plan, it is eligible for access to SNOWS credits to offset the remaining mains water use. To access SNOWS, a Grampian condition is applied giving the applicants the option of either offsetting via SNOWS, or via a bespoke water neutrality solution.

Natural England supports the Council's wider use of a Grampian style condition when applications would be eligible for joining SNOWS:

"Having considered your appropriate assessment, and the measures proposed to mitigate for any adverse effects on the integrity of the Arun Valley designated sites (by way of increased water consumption within the SNWSZ), Natural England advises that we are satisfied that an adverse effect on integrity can be ruled out, providing that the identified mitigation measures are appropriately secured in any planning permission given.
Natural England supports your authority's decision to apply Grampian-style conditions to development proposals that are eligible to access the strategic mitigation being delivered as part of SNOWS… Subject to an appropriately worded condition being applied, Natural England is satisfied that an adverse effect on the integrity of the Arun Valley designated sites by way of increased water consumption can be ruled out."

Consequently, the principle of applying a Grampian condition to access SNOWS is supported by Natural England. This condition (no.32) is attached to this new planning permission. Subject to this condition, and the amended condition 18, the proposed development would demonstrate water neutrality thereby ensuring compliance with Policy 31 of the Horsham District Planning Framework (2015), Paragraph 193 of the National Planning Policy Framework (2024), and enabling the Local Planning Authority to discharge its duties under the Conservation of Habitats and Species Regulations 2017 (as amended).

Recommendation: Application Permitted

Conditions:

1 Plans list

2 **Regulatory (Time) Condition:**

(a) Approval of details relating to the scale and appearance of each building, access within the site, and landscaping of the development (hereinafter called "the Reserved Matters"); shall be obtained from the Local Planning Authority in writing before any development of this phase is commenced.

(b) Plans and particulars of the Reserved Matters referred to in condition (a) above, relating to the scale and appearance of each building, access within the site, and landscaping of the development shall be submitted in writing to the Local Planning Authority and shall be carried out as approved.

(c) Application for approval of the Reserved Matters shall be made to the Local Planning Authority before 07.10.2025.

(d) The development hereby permitted shall be begun either before 07.10.2025, or before the expiration of 2 years from the date of approval of the last of the Reserved Matters to be approved, whichever is the later.

Reason: To enable the Local Planning Authority to control the development of the Outline element in detail and to comply with Section 92 of the Town and Country Planning Act 1990.

3 **Pre-Commencement Condition**: No development (including any ground clearance or site levelling) shall commence until a Construction Environment Management Plan (CEMP) has been submitted to, and approved in writing by, the Local Planning Authority. The approved CEMP shall be a single document covering the development of this part of the site and shall be strictly adhered to throughout the construction period. The CEMP shall provide for, but not be limited to:

i. An introduction consisting of construction phase environmental management plan, definitions and abbreviations and project description and location;
ii. A description of management responsibilities;
iii. A description of the construction programme which identifies activities likely to cause high levels of noise or dust;
iv. Site working hours and a named person for residents to contact;
v. Detailed Site logistics arrangements;
vi. Details regarding parking, deliveries, and storage;
vii. The anticipated number, frequency and types of vehicles used during construction;
viii. Details of construction traffic routing, including site access;
ix. Details of any construction-related floodlighting, including location, height, type, timing and direction of light sources and intensity of illumination;
x. Details regarding dust and noise (including vibration) mitigation measures to be deployed including identification of sensitive receptors and ongoing monitoring;
xi. Details of the hours of works and other measures to mitigate the impact of construction on the amenity of the area and safety of the highway network;
xii. Communication procedures with the local community regarding key construction issues - newsletters, fliers etc.
xiii. Locations and details of the erection and maintenance of security hoarding including decorative displays and facilities for public viewing, where appropriate;
xiv. The provision of wheel washing facilities and other works required to mitigate the impact of construction upon the public highway (including the provision of temporary Traffic Regulation Orders);
xv. Details of a scheme for the recycling/disposing of waste resulting from site clearance and construction works.

Reason: As this matter is fundamental in the interests of good site management, highway safety, and to protect the amenities of adjacent businesses and residents during construction works to accord with Policies 33 & 40 of the Horsham District Planning Framework (2015).

4 Pre-Commencement Condition: No development (including demolition pursuant to the permission granted, ground clearance, or bringing equipment, machinery or materials onto the site), shall commence until the following preliminaries have been completed in the sequence set out below:

- All hedgerows, trees and vegetation on the site shown for retention [in the Tree Constraints Plan, by Treescene, received 10/03/2022] as well as those off-site whose root protection areas ingress into the site, shall be fully protected throughout all construction works by tree protective fencing affixed to the ground in full accordance with section 6 of BS 5837 'Trees in Relation to Design, Demolition and Construction - Recommendations' (2012).
- Once installed, the fencing shall be maintained during the course of the development works and until all machinery and surplus materials have been removed from the site.
- Areas so fenced off shall be treated as zones of prohibited access, and shall not be used for the storage of materials, equipment or machinery in any circumstances. No mixing of cement, concrete, or use of other materials or substances shall take place within any tree protective zone, or close enough to such a zone that seepage or displacement of those materials and substances could cause them to enter a zone.

Any trees or hedges on the site which die or become damaged during the construction process shall be replaced with trees or hedging plants of a type, size and in positions agreed by the Local Planning Authority.

Reason: As this matter is fundamental to ensure the successful and satisfactory protection of important trees and hedgerows on the site in accordance with Policy 33 of the Horsham District Planning Framework (2015).

5 **Regulatory Condition**: The development hereby permitted shall be carried out in strict accordance with Flood Risk Technical Note [23-027-GOY], Submission to discharge Condition 5 - Drainage [23-030-I&L], drawing ref: D01 Proposed Drainage, drawing ref: 5017393-RDG-XX-XX-DOC-C-9950 Part 1 of 4, Flood Risk Drainage Strategy - Part 1 of 4, drawing ref: 5017393-RDG-XX-XX-DOC-C-9950 Part 2 of 4Flood Risk Drainage Strategy - Part 2 of 4, drawing ref: 5017393-RDG-XX-XX-DOC-C-9950 Part 3 of 4 Flood Risk Drainage Strategy - Part 3 of 4, and drawing ref: 5017393-RDG-XX-XX-DOC-C-9950 Part 4 of 4 Flood Risk Drainage Strategy - Part 4 of 4. The Drainage Strategy shall be implemented prior to first occupation in accordance with the approved details and thereafter retained as such.

Reason: As this matter is fundamental to prevent the increased risk of flooding, to improve and protect water quality, improve habitat and amenity, and ensure future maintenance in accordance Policies 35 and 38 of the Horsham District Planning Framework (2015).

6 **Regulatory Condition**: The development hereby permitted shall be carried out in strict accordance with the approved Specification for an Archaeological Evaluation by Trial Trenching: Land Off Newbridge Road, Billingshurst, West Sussex and Archaeological Evaluation Report dated April 2024 [AAL 2024051].

Reason: This matter is fundamental as the site is of archaeological significance and it is important that it is recorded by excavation before it is destroyed by development in accordance with Policy 34 of the Horsham District Planning Framework (2015).

7 **Regulatory Condition**: The development hereby permitted shall be carried out in strict accordance with the approved Submission to discharge condition 7 - Contamination Risk Assessment, including Appendix A - Phase 1 & 2 Ground Investigation Report by Geo-Environmental dated March 2020. Any changes to these components require the consent of the local planning authority.

Reason: As this matter is fundamental to ensure that no unacceptable risks are caused to humans, controlled waters or the wider environment during and following the development works and to ensure that any pollution is dealt with in accordance with Policies 24 and 33 of the Horsham District Planning Framework (2015).

8 **Regulatory Condition**: The site levelling works shall be carried out in strict accordance with approved drawing ref: G00 Rev P4 Earthworks Cut and Fill Volumes prior to the commencement of development of any building within Phase 2.

Reason: As this matter is fundamental to control the development in detail in the interests of amenity and visual impact and in accordance with Policy 33 of the Horsham District Planning Framework (2015).

9 **Regulatory Condition**: The development hereby permitted shall be implemented and retained in strict accordance with the approved Biodiversity Enhancement Strategy dated 19th April 2024 [16479_R02_MJ]. Under no circumstances should any other external lighting be installed without prior consent from the Local Planning Authority.

Reason: As these matters are fundamental to safeguard the ecology and biodiversity of the area in accordance with Policy 31 of the Horsham District Planning Framework (2015), and to enhance Protected and Priority Species/habitats and allow the LPA to discharge its duties under the s40 of the NERC Act 2006 (Priority habitats & species).

10 No longer applicable

11 **Pre-Occupation Condition**: Prior to the first occupation or use of the development hereby permitted, a Marketing Report shall have been submitted to and approved in writing by the Local Planning Authority. The Marketing Report shall set out how the occupation of the units hereby approved have been marketed to existing or new businesses based within the Horsham District (local businesses). The minimum marketing period shall be as follows:

i. An initial period of 6 months from the date of grant of Planning Permission. During this period, no sales or letting shall be agreed with businesses other than local businesses.

ii. A subsequent period of 6 months (up to a period of 12 months from the grant of Planning Permission). During the subsequent period, no more than 50% of the unoccupied units shall be marketed for occupation to businesses based outside the Horsham District

Reason: To ensure the development promotes local economic growth in accordance with Policy 7 of the Horsham District Planning Framework (2015).

12 **Regulatory Condition**: The development hereby permitted shall be carried out and operated in strict accordance with the approved Noise Management Plan dated 17th December 2024.

Reason: In order to ensure that the safe operation of the development and to protection of the amenities of nearby residents, in accordance with Polices 33 and 40 of the Horsham District Planning Framework (2015).

13 **Pre-Occupation Condition**: Prior to the first occupation or use of the development hereby permitted, a Landscape and SuDS Management and Maintenance Plan (including long term design objectives, management responsibilities, a description of landscape components, management prescriptions, maintenance schedules and accompanying plan delineating areas of responsibility) for all landscape areas and SuDS infrastructure (existing and proposed) shall have been submitted to and approved in writing by the Local Planning Authority. The landscape areas shall thereafter be managed and maintained in accordance with the approved details.

Reason: To ensure a satisfactory development and in the interests of visual amenity and nature conservation in accordance with Policies 25, 31 and 33 of the Horsham District Planning Framework (2015).

14 **Pre-Occupation Condition**: Prior to the first occupation or use of the development hereby permitted, a verification report demonstrating that the SuDS drainage system has been constructed in accordance with the approved design drawings shall be submitted to and approved by the Local Planning Authority. The development shall be maintained in accordance with the approved report.

Reason: To ensure a SuDS drainage system has been provided to an acceptable standard to the reduce risk of flooding, to improve and protect water quality, improve habitat and amenity, and ensure future maintenance in accordance Policies 35 and 38 of the Horsham District Planning Framework (2015).

15 **Pre-Occupation Condition**: Prior to the first occupation or use of the development hereby permitted, an Air Quality Mitigation Scheme shall be submitted to and approved in writing by the Local Planning Authority. The Air Quality Mitigation Scheme shall detail the measures to achieve a minimum environmental damage cost value of £25,435.73 and include (but not be limited to) the measures detailed in the Mitigation Section of the ACCON UK Air Quality Assessment v2 (18th December 2024). The approved scheme shall be installed prior to first occupation of the development and shall thereafter remain as such.

Reason: To mitigate the impact of the development on air quality within the District and to sustain compliance with and contribute towards EU limit values or national objectives for pollutants in accordance with Policies 24 & 41 of the Horsham District Planning Framework (2015).

16 **Pre-Occupation Condition**: Prior to the first occupation or use of the development hereby permitted, a Travel Plan shall have been submitted to and approved in writing by the Local Planning Authority. The Travel Plan shall be completed in accordance with the latest guidance and good practice documentation as published by the Department for Transport or as advised by the Highway Authority and shall include details to mitigate impacts on air quality as set out in the Council's latest Air Quality and Emissions Reduction Guidance document. The applicant shall use all reasonable endeavours to work with other businesses in the immediate area to co-ordinate the measures within the travel plan. The Travel Plan once approved shall thereafter be implemented as specified within the approved document.

Reason: To encourage and promote sustainable transport and mitigate the impacts of the development on air quality in accordance with Policies 35, 40 & 41 of the Horsham District Planning Framework (2015).

17 **Pre-Occupation Condition**: Prior to the first occupation or use of the development hereby permitted, full details of the proposed footpath link along the eastern boundary to the existing footbridge as shown on approved Proposed Block Site Plan reference [101 Rev B] shall have been submitted to and approved in writing by the Local Planning Authority. The footpath shall be implemented in accordance with the approved details prior to the first occupation (or use) of any part of the development and maintained as such thereafter.

Reason: To encourage and promote sustainable travel options to the site, and in the interests of visual amenity in accordance with Policies 33 and 40 of the Horsham District Planning Framework (2015).

18 **Pre-Commencement Condition**:

(a) No development shall commence until full details of the water efficiency measures and rainwater/greywater harvesting system required by the approved Water Neutrality Technical Note 's73 Water Credit Option' (prepared by SB Partnership, received 18.03.2025) have been submitted to and been approved in writing by the Local Planning authority. The submitted details shall include:

- The specification of the fittings and fixtures to be installed within each unit.
- Details of the rainwater storage tank capacity to allow for a minimum of 35 days storage.
- Detail on the proposed rainwater treatment system and maintenance regime.
- Details of who is responsible for the management and maintenance of the rainwater system.
- Arrangements for keeping written records of all sampling, results of analysis, inspection, cleaning, and maintenance.

(b) No unit hereby permitted shall be first occupied until evidence has been submitted to and been approved in writing by the Local Planning Authority that the approved water neutrality strategy for that unit has been implemented in full in accordance with the approved details. The evidence shall include the specification of fittings and appliances used, evidence of their installation, evidence they meet the required water consumption flow rates, and evidence of the installation and connection of the rainwater harvesting system and appropriate storage tanks to provide a minimum 35 days storage capacity. The installed measures shall be retained and operated as such at all times thereafter to an equivalent or better water performance standard.

Reason: To ensure the development is water neutral to avoid an adverse impact on the Arun Valley SACSPA and Ramsar sites in accordance with Policy 31 of the Horsham District Planning Framework (2015), Paragraph 193 of the National Planning Policy Framework (2024), and to enable the Local Planning Authority to discharge its duties under the Conservation of Habitats and Species Regulations 2017 (as amended), and s40 of the NERC Act 2006 (Priority habitats & species).

19 No longer applicable

20 **Regulatory Condition**: The approved fire hydrant shall be installed in accordance with drawing ref: 101 Rev B Proposed Block Site Plan and ready for use prior to the first use of the development hereby permitted and shall thereafter be retained as such.

Reason: In accordance with fire and safety regulations in accordance with Policy 33 of the Horsham District Planning Framework (2015).

21 No longer applicable

22 **Regulatory Condition**: All works within the development hereby permitted shall be carried out in full accordance with the mitigation and enhancement measures and/or works contained within the Ecological Walkover Report [Tetra Tech, 784-B033054, dated 17 January 2022].

Reason: To conserve and enhance protected and priority species in accordance with the UK Habitats Regulations 2017, the Wildlife & Countryside Act 1981, s40 of the NERC Act 2006, and Policy 31 of the Horsham District Planning Framework (2015).

23 **Regulatory Condition**: No operations or activities, including the operation of plant and machinery and deliveries/dispatches, shall take place in connection with any of the units within the development hereby permitted; except between the hours of 06:00 to 23:00 Mondays to Saturdays, and 07:00-20:00 on Sundays and public holidays.

Reason: To safeguard the tranquillity of the countryside and amenities of neighbouring properties in accordance with Policies 24, 25, 26 & 33 of the Horsham District Planning Framework (2015).

24 **Regulatory Condition**: No external lighting, other than low level lighting to emergency exits, shall be operated within the development site hereby permitted between the hours of 23:00 to 06:00 hours the following day on Mondays to Fridays, 23:00 to 07:00 hours the following day on Saturdays, and 20:00 to 06:00 hours the following day on Sundays and public holidays.

Reason: To safeguard the ecology and tranquillity of the countryside and amenities of adjacent occupiers in accordance with Policies 24, 25, 26 & 33 of the Horsham District Planning Framework (2015).

25 **Regulatory Condition**: No externally located plant or equipment within the development site hereby permitted shall be installed or operated without the prior written approval of the Local Planning Authority by way of formal application.

Reason: To safeguard the amenities of neighbouring residents and in accordance with Policy 33 of the Horsham District Planning Framework (2015).

26 **Regulatory Condition**: Following first occupation of each unit within the development hereby approved, no mezzanine or additional floor levels (other than any already identified on the approved drawings listed in Condition 1) shall be constructed within any unit without express planning consent from the Local Planning Authority first being obtained.

Reason: To ensure the traffic generation form the site is sustainable having regard the car park facilities within the wider development to ensure no overspill parking into surrounding roads to accord with Policies 40 & 41 of the Horsham District Planning Framework (2015).

27 **Regulatory Condition**: No external storage of any materials or waste shall take place at any time within the development hereby permitted without the prior approval in writing of the Local Planning Authority.

Reason: To safeguard the amenities of the locality in accordance with Policies 32 and 33 of the Horsham District Planning Framework (2015).

28 **Regulatory Condition**: No works for the implementation of the development hereby permitted shall take place outside of 08:00 hours to 18:00 hours Mondays to Fridays and 08:00 hours to 13:00 hours on Saturdays nor at any time on Sundays, Bank or public Holidays

Reason: To safeguard the amenities of adjacent occupiers in accordance with Policy 33 of the Horsham District Planning Framework (2015).

29 **Regulatory Condition**: Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) (England) Order 2015 (and/or any Order revoking and/or re-enacting that Order) no development falling within Classes F, G, H and J of Part 7 of Schedule 2 of the order shall be erected, constructed or placed within the curtilage(s) of buildings within the development hereby permitted, without express planning consent from the Local Planning Authority first being obtained.

Reason: In the interest of visual amenity to protect the rural character of the area in accordance with Policies 25, 26, 27 & 33 of the Horsham District Planning Framework (2015).

30 **Regulatory Condition**: Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) (England) Order 2015 (or any order amending or revoking and/or re-enacting that Order), no change of use of the units within the development hereby permitted from the uses granted for that unit by this permission shall take place without express planning consent from the Local Planning Authority first being obtained.

Reason: To ensure the development remains in employment use in accordance with Policies 7 & 9 of the Horsham District Planning Framework (2015).

31 **Regulatory Condition**: No part of the building or the site shall be designated, equipped or used as a vehicle washing area without the prior written consent of the Local Planning Authority.

Reason: To ensure the development is water neutral to avoid an adverse impact on the Arun Valley SACSPA and Ramsar sites in accordance with Policy 31 of the Horsham District Planning Framework (2015), Paragraphs 179 and 180 of the National Planning Policy Framework (2021), its duties under the Conservation of Habitats and Species Regulations 2017 (as amended), and s40 of the NERC Act 2006 (Priority habitats & species).

32 **Pre-Commencement Condition**: No development shall commence until either:

i) Details have been submitted to and been approved in writing by the Local Planning Authority confirming that the necessary credits to achieve water neutrality have been secured via the Sussex North Offsetting Water Scheme;

or

ii) A site-specific water neutrality mitigation scheme has been submitted to and been approved in writing by the Local Planning Authority. The site-specific water neutrality mitigation scheme shall include full details of the means of any and all onsite and offsite mitigation and any necessary agreements pursuant to S106 of the Town and Country Planning Act 1990 to deliver and secure the approved mitigation; and

iii) The development shall not be first occupied until evidence has been submitted to and been approved in writing by the Local Planning Authority confirming that the approved site-specific water neutrality mitigation scheme has been fully implemented. The approved mitigation shall thereafter be retained, maintained and operated to the same or better water performance standard.

Reason: To ensure the development is water neutral to avoid an adverse impact on the Arun Valley SAC/SPA and Ramsar sites in accordance with Policy 31 of the Horsham District Planning Framework (2015), Paragraph 193 of the National Planning Policy Framework (2024), and to enable the Local Planning Authority to discharge its duties under the Conservation of Habitats and Species Regulations 2017 (as amended), and s40 of the NERC Act 2006 (Priority habitats & species).

<u>POSITIVE AND PROACTIVE STATEMENT</u>

Statement pursuant to Article 35 of the Town and Country Planning (Development Management Procedure) (England) Order 2015. The Local Planning Authority has acted positively and proactively in determining this application by assessing the proposal against all material considerations, including planning policies and any representations that may have been received, in order to be able to, where possible, grant permission.
