To whom it may concern.

I am writing this letter to explain the importance of my current storage facility, located at Woodside Equestrian Centre, to the day-to-day running of my business.

As a locally situated enterprise, I rely heavily on consistent, secure and accessible storage for my stock, equipment and materials. I have been renting two 40' storage containers since 2019 providing a practical and affordable solution, allowing me to organise inventory efficiently, maintain stock levels and respond promptly to customer needs.

These storage containers are easily accessible to all of my work force and the flexibility and proximity of the site, are essential for managing daily operations.

Without access to this storage space, my ability to operate efficiently would be significantly impacted. Alternative storage options in the area are either unavailable, unsuitable for my business requirements or financially unviable.

In summary, the loss of this storage facility would create substantial operational difficulties and could jeopardise the sustainability of my business. Continued access to this space is therefore vital to maintaining operations and supporting the local economy through my work.

Thank you for your consideration

23rd April 2026

Dear Sir/Madam,

I am writing to raise my concern about the potential loss of access to the storage facility I currently rent on a local farm. This space is essential to the day-to-day running of my small business and losing it would create significant challenges for maintaining both efficiency and continuity.

As a local business, I depend on accessible and affordable storage to manage stock and materials effectively. The current facility offers a practical and cost-efficient solution that allows me to operate within my means while continuing to serve my customers reliably. Its location and suitability are particularly important, enabling me to streamline logistics, minimise transport time, and respond promptly to customer needs.

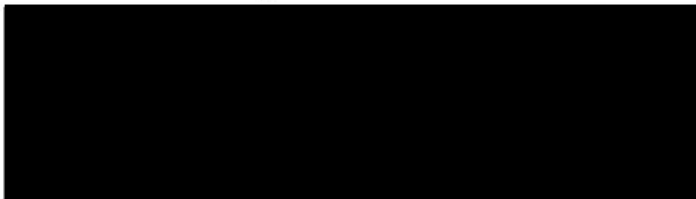

Without this facility, I would be forced to look for alternative storage options that are likely to be more costly, less convenient, or unsuitable for my operational needs. This would inevitably increase expenses, cause delays in service, and limit my ability to meet demand. Ultimately, this could have a detrimental impact not only on my business but also on the local community that relies on the services I provide.

I kindly ask the council to consider the importance of such facilities for small businesses like mine. Continued access to affordable and practical storage is vital for sustaining local enterprises and supporting the wider economy.

Thank you for your time and consideration.

Kind regards

Yours sincerely

HORSHAM. WEST SUSSEX

Dear Sir/Madam,

I am writing to explain why I need to keep a storage container for my carpet fitting business.

My work involves ordering and keeping different types of carpets, underlay, and other materials. Sometimes I have to buy in bulk to get better prices or to make sure I have what I need ready for jobs. Because of this, I end up with more materials than I can store inside my home or van.

Having a storage container gives me a safe and secure place to keep these extra supplies. It helps me stay organised and makes sure materials are protected from weather and damage. It also makes it easier for me to do my work properly and keep my business running smoothly. Without proper storage, materials can get damaged or go to waste, which affects my income and my ability to serve customers.

I am not using the container for anything else, just for storing work-related items for my business. And losing this storage would seriously affect my ability to continue my business.

I hope you can understand my situation and consider my request to be able to continue the storage

Thank you for your time.

20th April 2026

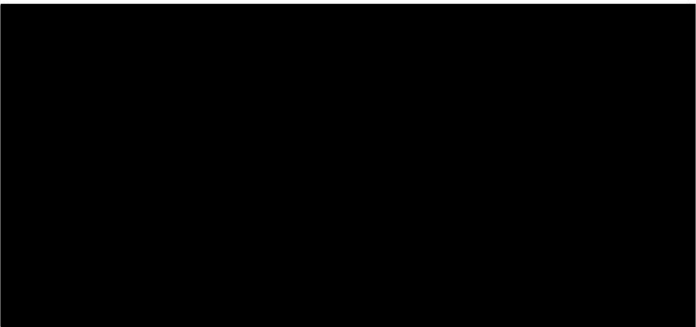

Dear Sir,

I have just been told that I may have to lose the storage container I have at Woodside Equestrian Centre.

I have rented this container since 2021 and this facility is vital to my small business. I am a local tradesperson and have nowhere else to store my building materials and tools. I use this storage for my cement mixers, portable electrical appliances and small tools.

This site is perfectly located, close to where I live ensuring no unnecessary travel costs and is affordable. There are no other storage options anywhere near me

I would not be able to continue with my work if I were to lose the container

HORHAM WINDOW CLEANING

[REDACTED] MOBILE NUMBER [REDACTED]

Dear Sir

I have been informed by my landlady, Sue Novell, that I may have to give up my rental of a container that I use at Woodside Equestrian Centre.

I am a local window cleaner and I have rented this container since 2019. I rely entirely on the space to store my work equipment, tools, ladders etc. Without this space I would be unable to continue with my business. The rental charged is very reasonable and I am unable to find anything else close enough to my work, or affordable.

I have tried to find alternative storage but there is non available and all a lot more than I can afford.

The impact this would have on my business would be enormous and probably mean the closure of it.

Yours
