

# Existing Signage

Prepared on behalf of

**Grandir UK**

For

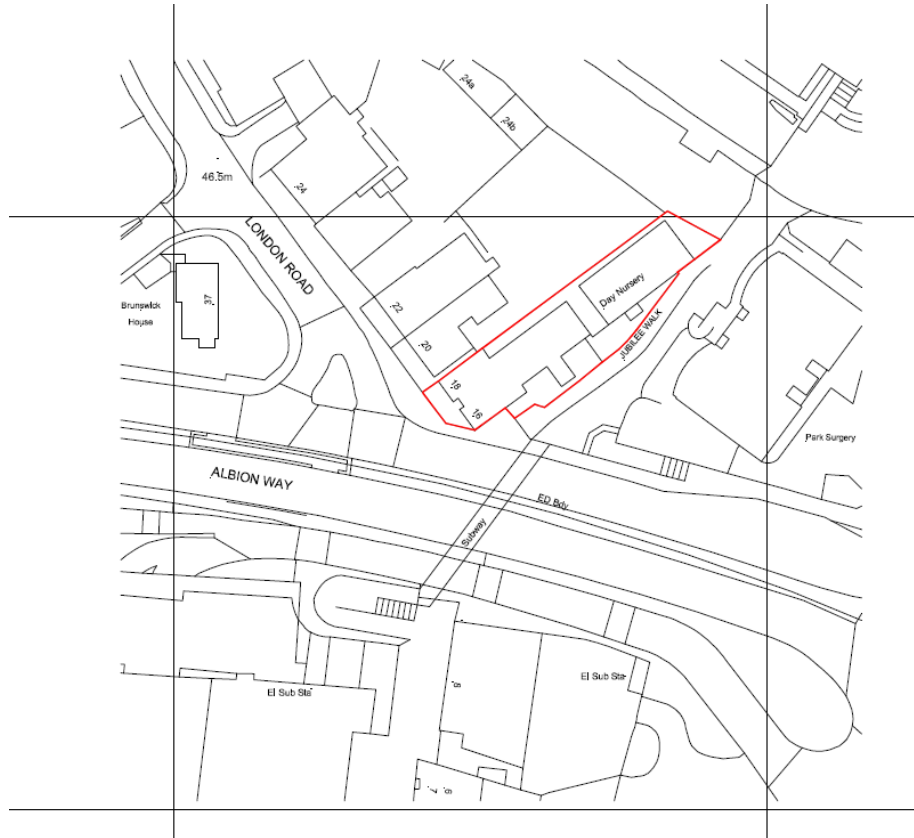

**Little Monkeys Day Nursery, 18 London Rd, Horsham  
RH12 1AY**

Erection of a fascia sign to the façade of the existing building and replacement post-mounted freestanding sign.

**November 2025**

## 1 Introduction

- 1.1 This document accompanies the advertisement consent for the erection of a fascia sign and replacement post-mounted sign at Little Monkeys Day Nursey, 18 London Road, Horsham.

**Site Location Plan**

- 1.2 The erection of the new signage is necessary to help signpost users to the nursery and to advertise spaces available, providing ease of access and promoting the nursery provision to the passing public.
- 1.3 The signs provide vital advertising for the nursery and would help to promote a sustainable and viable future for the business. The design and positioning of the sign has been carefully considered to respond well to the setting and while there will be a visual impact in introducing a new sign to the building; the proposed location utilises existing fixing points that have historically been affixed to the building as well as the existing posts that have been located outside the building since at least 2012.
