Categories: Comments Received

Dear Mr Holmes,

I am writing again to object to the above proposed development.

Even tweaking the new proposal doesn't mitigate for the loss of habitat, lack of road access, pedestrian usage or the protected Bat's that reside on that piece of land. If this application is given the go-ahead – it would be vandalism of the eco-system that it occupies.

Do you really expect the residents there to believe that this application is just another way around a planning requirements?

I trust you see through this application for what it is and reject it outright, as like their previous attempts.

Yours Sincerely,

[REDACTED]
