Hi Nicola,

The Trees team have been consulted on the above conditions discharge application in respect of the outline permission for access only at the above housing site.

A revised AIA/AMS (Rev D - August 2026) has been submitted in conjunction with the drainage and levels plans which presumably takes account of all alterations that have needed to have been taken in terms of direct tree impacts? Unfortunately, I cannot see what changes to the AMS have been made. Can you please request clarification in this respect.

Thanks and regards

Andy
